Administration

Concepts and Roles in Administration

The general goal of the district’s administration shall be to create and operate an environment in which students learn most effectively. This shall be accomplished through the implementation of Governing Board Policies under the direction of the Superintendent. The Board shall rely on its chief executive officer, the Superintendent, to provide the professional administrative leadership within the district.

The district’s administrative organization shall be designed so that all divisions and departments of the central office and all schools are part of a single system. Principals and central office administrators are all expected to administer their units in accordance with Board Policy and the District Superintendent’s rules and regulations.

The Board directs the Superintendent to develop mechanisms which shall ensure that administrative decisions are responsive to the specific needs of individual students and the school community.

The Superintendent, Assistant Superintendents, Principals, and all other administrators shall have the authority and responsibility necessary for their specific administrative assignment. Each shall likewise be accountable for the effectiveness with which the administrative assignment is carried out.

The Superintendent shall request the attendance of any administrative personnel at regular and special meetings of the Board, as he/she deems such attendance to be in the best interests of the school district.

The Superintendent may require reports from any of these personnel on such topics and at such time as it may serve the purpose of the school district.

The major goal of district administration shall be:

1. To manage the district’s various departments, units, and programs effectively.
